SKIN REJUVENATION

Laser skin rejuvenation is a powerful, virtually pain-free Intense Pulsed Light treatment that reverses the noticeable brown spots and spider veins on your face, hands, chest or any area. Over time, the elastin fibres, give your skin that firm, youthful quality, simply break down. The result is a dull complexion and sagging skin that looks tired and worn. This treatment provides the kind of rejuvenation that'll give you a clearer, brighter, and more radiant complexion with diminished fine lines, reduced pore size, and a smoother overall skin tone.

SLIMMING

LIPOSONIX HIFU BODY SCULPTING

HIFU body sculpting is a non-invasive treatment for removing stubborn body fat, skin toning and tightening. HIFU Body treatments are the latest in non-invasive technology to target specific areas of fat in the quickest way possible. Only one treatment is required to achieve the results and there is no downtime. Liposonix offers a real natural alternative to lip-suction or surgery.
